

Hello, my name is Rosie and I moved to Ipstones from Kent in November 2020, following my children and grandchildren to the area. I love it here and I have been busy joining in as much as I can with the village community.

I worked in education for the last 25 years; initially teaching Psychology to adults then Philosophy and Psychology of Education to trainee teachers. Now I'm retired I love being outside: walking, birdwatching, gardening and I have never lost my curiosity about all wildlife and the natural world. In the colder months I am indoors making things. Cooking, sewing, knitting; you name it, I'll give it a go!

I am still passionate about education and very pleased to be joining this lovely school as a Foundation Governor.
