St Leonard's CE (A) First School

Principle

Spiritual, Moral, Social and Cultural Policy

St Leonard's CE First School provides a curriculum which: (a) promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and (b) prepares pupils at the school for the opportunities, responsibilities and experiences of later life. (Section 78 Education Act 2002)

Spiritual, moral, social and cultural development (SMSC) are closely interconnected as they relate to matters of self, others, beauty and beyond. We affirm that 'If the spiritual is properly and fully addressed, the moral, social and cultural will fall into place more easily' (Alan Brown. National Society)

We recognise that progress in all areas of SMSC depends on developing these spiritual areas within pupils:

- **Spiritual Capacities:** recognition that all human beings are capable of spiritual growth through capacities such as self-awareness, reflection, empathy, imagination and creativity.
- **Spiritual Experiences:** ways in which pupils can encounter the spiritual dimension of life
- **Spiritual Understanding:** the need to make sense of the spiritual experiences encountered
- **Spiritual responses:** how this experience and understanding impacts and shapes the way in which we live our lives.

At St Leonard's school the promotion of pupils' spiritual, moral, social and cultural development lies at the heart of the curriculum, and is promoted through all the subjects of the curriculum, through the character of the school and its collective worship within a framework of positive attitudes and Christian values. We seek to offer an education, which is based on the belief that each individual is unique and valuable.

British Values - Promoting British Values

St Leonard's is very much committed to serving our community and recognises the multicultural, multi faith and ever-changing nature of our world in which we live. We also understand the vital role we have in ensuring that groups or individuals within the school, are not subjected to intimidation or radicalisation by those wishing to unduly, or illegally, influence them. St Leonard's also follows equal opportunities guidance which guarantees that there will be no discrimination against any individual or group, regardless of faith, ethnicity, gender, sexuality, political or financial status, or similar. Our staff are dedicated in preparing students for their adult life beyond the formal examined curriculum, and ensuring that we promote and reinforce British Values to all our students. We strive to promote and secure British values throughout our curriculum and ethos. This statement demonstrates our commitment not only to promoting British Values, but also celebrating and embracing them. The DfE have recently reinforced the need to create and enforce a clear and rigorous expectation on all schools to promote the fundamental British Values of:

- Democracy
- Rule of Law
- Individual Liberty
- Mutual Respect
- Tolerance of Different Faiths and Beliefs

The Head teacher, Governing Board and staff ensure that the spiritual, moral, social and cultural are affirmed in the Mission Statement of the school, as follows:-

- *At St. Leonard's First School we endeavour to promote a happy, peaceful and welcoming school at the heart of the community in which all are valued as special and unique individuals.*
- *We aim to inspire a curiosity for life, a love of God and one another, a willingness to help those in need and a respect for our world, through worship and celebration together in our school and local church.*

- *Together we will deliver the highest standards of teaching and learning, educating the whole child as preparation for life by valuing hard work and learning together as a school family.*

Aims and objectives

- to promote the pupils' spiritual, moral, social and cultural development to enable them to thrive in a supportive, cohesive learning community.
- to provide a Christian environment which will enable pupils to become aware of and reflect on their own experiences and those of others;
- to discover meaning and value in these experiences while recognising that they may point to and reveal God.
- To provide pupils with knowledge and insight into values and beliefs which enable them to reflect on their experiences in a way which develops the spiritual awareness and self-knowledge.
- To develop skills and attitudes that promote respect for all and open-mindedness while recognising the value and uniqueness of every individual.

To achieve these aims, the following areas of experience should be fostered in pupils:

- **Beliefs:** developing understanding of how commitment to belief contributes to personal identity. Particular reference should be made to the Christian faith.
- **A sense of awe and wonder:** continuing openness to and appreciation of the marvels of the created order, and of human achievement.
- **Feelings of transcendence:** recognising that some experiences point beyond the everyday towards God.
- **Search for meaning and purpose:** readiness to reflect on "difficult" questions and respond to the challenging experiences of life, including an awareness of the response offered by religious faith.
- **Self-knowledge:** growing self-awareness, self-acceptance and self-respect which recognises the importance and power of the physical, emotional, rational and spiritual aspects of personality.
- **Creativity:** willingness to express inner feelings through creative arts, recognising the importance of imagination, intuition and

inspiration as a sharing with God's Spirit in the greater creative process.

- **Feelings and Emotions:** growing awareness of the importance of emotions, which can appreciate beauty or respond to injustice, and which when rooted in love, lead to a real human maturity.
- **Relationships:** growing recognition and valuing of the worth of every individual, developing sense of community and ability to build up relationships, as Jesus said "Love your neighbour as yourself".
- **Sense of right and wrong:** growing recognition that rules govern behaviour, dictating that some actions are classed as right and some as wrong. "Love God and love your neighbour as yourself".
- **Self-discipline:** developing awareness that moral behaviour comes as much from regulation from within as conforming to outside rules.
- **Making responsible decisions:** readiness to engage in open discussion to learn about moral issues so that there is regular involvement in the process of decision making.
- **Respect for persons, truth and property:** growing understanding that people hold different beliefs and objects dear to themselves, and a growing appreciation of and respect for diversity.
- **Repentance and forgiveness:** recognition that people fail to keep to the accepted standards, so that asking for or offering forgiveness is a necessary step towards restoring broken relationships.
- **The will to behave morally:** developing understanding that behaviour affects other people and it is necessary to make a deliberate choice to behave in a way which will be of benefit to others.
- **Knowledge of codes and conventions of conduct:** recognition that societies lay down rules which reflect what is of value in the community and that these are used as guides for behaviour.

SPIRITUAL DEVELOPMENT

Spirituality is a search for meaning and purpose in life through an awareness of inner feelings, beliefs and experiences. It relates to dimensions of life not necessarily experienced through physical senses, but to do with feelings, emotions, attitudes and beliefs. The term spiritual

need not be synonymous with religion.

The school's spiritual boundaries are determined by its Church status. Nothing which dishonours its Anglican Foundation will be considered appropriate for inclusion within the spiritual curriculum.

The spiritual dimension links particularly to the areas of Collective Worship and Religious Education and the content of the relevant school policies.

Spirituality is not necessarily experienced through the physical senses or through everyday language. It can be encouraged through many areas such as creativity, relationships, emotions, self-knowledge, meaning and purpose, transcendence, awe, mystery and wonder and beliefs.

MORAL DEVELOPMENT

Moral development concerns the ability to make judgements about behaviour and actions. It refers to knowledge, understanding, values and attitudes in relation to what is right or wrong. Pupils explore, understand and recognise Christian values, knowing that they are underpinned by Biblical teaching.

Moral education allows pupils to reflect on the impact of their actions on themselves and others, and develops the ability to stand by decisions in the face of criticism, ridicule or opposition. This can build self-confidence and determination. At

times this will involve acknowledging and challenging diversity, as well as shared values, as stances derived from different religious and non-religious worldviews are considered.

The Behaviour Policy and Anti-bullying Policies promote self-discipline, good manners and politeness and as such contribute to pupils' moral development. The

school's relationship and sexual policy also links closely with this area.

Planning for SMSC

All subject policies will contain reference to the SMSC dimensions, and schemes of work identify subject matter pertaining to these areas. In short term planning the necessary time and appropriate learning activities will be included to foster the desired objective.
