

Known as Jackie, I am a Foundation Governor at St Leonard's First School and a member of the Ipstones Parochial Church Council. I'm married and my two grandchildren are pupils at St Leonards. The village of Ipstones is a strong community and I am pleased to give various activities within the village my support. Before I retired, I spent over 40 years working in IT and lived in Hertfordshire. We moved to this area some 7 years ago and my daughter and her family moved here soon after. Communities need their school, their church, their shop and their public houses and I am happy to contribute to their success. I have no experience in the education sector but I have served on a number of committees over many years and have been a Parish Councillor and past Chairman of Chorleywood Parish Council.
