Special story lessons with Sparks Class

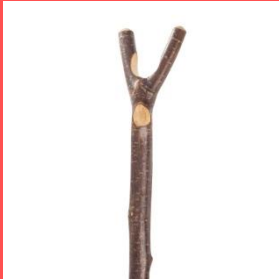

Watch the video of
Stanley's Stick

Can you tell a family member as many words you can think of that were in the story. Look at the examples below.

Can you remember all of the different things that Stanley used his stick for?

Stick and Stone explore in the story. They cross a river, walk through grass land and explore a cave. Can you write about Stick and Stone and what happened when they went into the cave. Draw a picture of what they discovered. Post it on seesaw for your teacher.
