Reception

These activities and ideas
are based around the book

“Supertato”

By Sue Hendra
& Paul Linnet.

All activities could be done
without the book!

Growing potatoes!

Do you know how else potatoes are super? Well if you plant a sprout potato it grows more potatoes! This takes 100 days.

Talking Together

So first you will need to pick a potato that is sprouting - Have a look in your veggie rack. Plant your potato where you choose in a big pot or in the garden. If you don't have soil you can still watch the potato grow by putting it in a jam jar.

Mark off the days on your 100 square day by day. When you get to 100 see how many potatoes you have!

There is one on the next slide for you.

Also did you know if you cut the top off a carrot and put it in a saucer of water you can make its shoots grow - looks a little like its growing hair!
